Dalcour Maclaren Appointed to Provide Planning and BNG Services for UK Power Networks

Bicester (UK), Monday 9th June, 2025 — Dalcour Maclaren has been appointed as a framework supplier to UK Power Networks, delivering Planning and Biodiversity Net Gain (BNG) services under a five-year contract. The appointment represents a significant step for the company’s Environment and Planning team as they support one of the UK’s leading electricity distribution networks.

Allison Pritchard, Director, Environment and Planning at Dalcour Maclaren, said:

“This is a fantastic opportunity for our Environment and Planning team. Our values align closely with UK Power Networks’ and we’re proud to be supporting their goals during this transformative period for the UK’s energy system.”

The work will support UK Power Networks in its drive to reach Net Zero, maintain a reliable supply, and deliver the social benefits of low-carbon technologies. Dalcour Maclaren will bring its extensive planning and environmental expertise to major infrastructure projects, creating long-term value for people and nature throughout the RII0-ED2 period.

Aaron Waters, Major Projects Consents Manager at UK Power Networks, added:

“We put a lot of thought into planning projects around new electricity substations, to make sure they are carried out in the best possible way for local communities and deliver cost-effective, low-carbon solutions for the future. This includes improving the natural environment by creating or enhancing wildlife habitats, and the results are often quite wonderful to see. We welcome the expertise of Dalcour Maclaren in helping us develop our sites further to benefit local communities.”

This appointment builds on Dalcour Maclaren’s seven-year track record of providing high-quality planning advice to electricity distribution network operators and more than 20 years of experience delivering multi-disciplinary services across power schemes. The team will work closely with UK Power Networks to help deliver its sustainability and infrastructure objectives.
